

Create New Language

Creating/modifying a language will automatically be updated on all user-end

To Create a new language, follow the below steps:

1. Click on "Create New Language" button from the "Language Configuration" screen

2. Enter the name of the language you'd like to create.

Language name cannot consist of spaces or numbers. Only English alphabets with hyphen(-) are allowed.

Outlook To JIRA Language Configuration

Note: Any language created/modified will be automatically updated on the user-end.

As a JIRA admin, you can create a new language in OTJ.

For more information, [Click here](#)

*Only English alphabets with hyphen(-) are allowed.

We value and appreciate receiving your compliments, suggestions or questions to better improve your OTJ experience.

3. Change the corresponding labels that you wish to rename
