

Turn Your Legacy mode off

About Legacy Mode:

- If Legacy Mode is disabled, your users will be able to change the Original Estimate value *irrespective of any work being logged on an issue*. Legacy Mode is disabled by default on new installations of JIRA version 4.2 or later.
- If Legacy Mode is enabled, your users can only specify an Original Estimate before they start logging work on an issue. This value cannot be changed once *any* work has been logged unless all work logs for that issue are first deleted.
- By default,
 - Legacy Mode is disabled if your JIRA 4.2 installation was conducted cleanly (that is, without upgrading from an earlier version of JIRA).
 - Legacy Mode is enabled if you upgraded JIRA from a version prior to 4.2.

To Turn off Legacy Mode Follow the below steps:

- Log in with an administrator user.
- Click on the gear icon on the top right corner of the screen.
- Navigate to issues.
- Scroll Down and select Time Tracking from the left panel under ISSUE FEATURES category.
- To Edit the options deactivate time tracking.
- uncheck the legacy mode and reactivate the time tracking.
