

AutoUpdate Configuration

Choose your method from the below links:

[Update the client side of OTJ\(Outlook\)](#)

[Update the server side of OTJ\(JIRA\)](#)

AutoUpdate Configuration can be found following the below steps:

Only administrators can access the following

1. Login to JIRA using an **Administrator** account
2. Search for the "Settings" symbol in the top right corner

3. In the "JIRA Administrator" section click on "Add-ons"
4. Navigate to "Outlook To JIRA" section located in the left panel of the page.
5. Click on "AutoUpdate Configuration"

Outlook To JIRA Auto Update Configuration

Enable Auto Update

Note: Enabling auto update will allow end-users to automatically update to the latest OTJ. Check documentation.
