

App4Legal.v6.8 Release Notes

Important highlights from this release

1. Customize your grid just as you like! You can now view and save the columns and grids to appear like you want them to.
2. Add a note to yourself through the "description" to your related contacts in the "Companies" module.
3. A revamp to the **events** in your **litigation matters** like you didn't know! Manage your events through the Administration & Setup by translating the fields at your convenience, predetermining the event types and making it public to the other users only to make things easier for you!
