

Delete Attachment

Delete Attachment will allow you to bulk delete Attachment from a certain project, this is beneficial for archiving attachments as you can export all attachment from the project using our [Export](#) feature

How to:

1. From Manage Add-on, hover to "Attachment Configuration" under AMJ (located in the left Menu)
2. Select the "Delete Attachment" tab
3. Select the project and click on Delete

Attachments Configuration

Extension Block Attachment Size & Number Delete Attachments

Warning!

This action will permanently **Delete all attachments** for the selected project, and there is no way to retrieve it back after '**Delete Process Finished!**
